

RIIMPO319E Conduct backhoe/loader operations

Course Information

Objective

This course covers the skills and knowledge required to operate a backhoe/loader to load, distribute and place materials in the resource industry.

This is a nationally recognised training course and successful completion will lead to the issuance of a Statement of Attainment in RIIMPO319E.

This course supersedes and is equivalent to RIIMPO319D Conduct backhoe/loader operations.

Who should attend?

This course is appropriate for those who work in site-based roles and who are required to:

- Plan and prepare for backhoe loader operations
- Operate and relocate a backhoe/loader in line with established requirements
- Load, carry and place materials to complete work activities
- Select, remove, fit and test attachments for the backhoe/loader
- Conduct routine post operational maintenance and housekeeping activities.

We encourage you to contact our administration team to discuss your existing skills and competencies to determine whether this course meets your learning needs.

Courses can be customised for industry employee groups and where possible training resources will be contextualised to suit your workplace. Please contact our administration team to discuss your workplace requirements.

Prerequisites

There are no pre-requisites to enrol in this course. Candidates must be 18 years or over at the commencement of the course.

Licensing/Regulatory information

There is no licensing requirement for this unit at the time of writing.

Language, literacy and numeracy (LLN) requirements

Successful completion of this course requires you to have basic levels of language, literacy and numeracy (LLN) ability. Specifically, you will be required to use verbal communication skills to communicate with others in the workplace, literacy skills to read and interpret workplace documents, writing skills to prepare simple reports and complete maintenance records, and numeracy skills to perform simple calculations and interpret numerical information.

Samples of the course theory guide and assessment requirements are covered in our pre-enrolment materials and are available from our administration team.

Recognition of prior learning

RPL is available for this unit. For information please contact our Administration team regarding eligibility.

Estimated duration

2 x 8-hour days

Expected mode of delivery

This course can be delivered via face-to-face workshop in an off-the-job or on-the-job environment that has been isolated for training and assessment purposes. Learners participate in class room based theory presentation and discussion, learning and assessment before undertaking practice opportunities followed by practical assessments. All theory and practical learning and assessment activities are completed within the workshop. There is no pre-reading, external course work or work placements required.

Assessment

Learners complete the following assessment activities:

- Theory knowledge test (written or oral)
- Performance of 2 simulated practical activities relevant to your workplace.

Course fee

On request.

Funding

You may be eligible to claim up to 80% of your course cost through the Building and Construction Industry Training Fund (BCITF). To find out if you are eligible please call BCITF on 9244 0100 or ask our staff.

Please note that Tom Price and Sons is not a VET FEE Help provider.
